- Sinhala

ABOUT ME

Motivated IT professional with hands-on experience in **mobile application development, software development, database management, and system design**. Skilled in **Flutter, Dart, Laravel, Firebase, MySQL, and modern development tools**, with a strong interest in building practical, user-friendly, and reliable software solutions.

WORK EXPERIENCE

Trainee Assistant – People's Bank, Sri Lanka 2023

- Assisted customers with banking services and handled customer inquiries in a professional and friendly manner.
- Onboarded **5,000+** customers onto the mobile banking platform, achieving a **75% first-time success rate** and reducing branch queue times by an average of **30 minutes per customer**
- Built strong communication, customer handling, teamwork, and problem-solving skills in a professional banking environment.

KEY PROJECTS

SalePro App– Freelan Enterprises (Pvt) Ltd For Test

- Created a **Mobile Application** Sales & Distribution Management System using **Flutter, Dart with FireBase Backend** to streamline sales operations and improve customer service.
- Built a sales management app handling 150+ daily orders across 50+ sales reps, with real-time order and delivery tracking.
- A role-based system for Admins, Sales Representatives, and Customers, with Firebase integration for secure data management and real-time operations.

Factory Safety & Documentation Management System Department of Labour (Current Project)

- Integrated a modern web-based system to manage factory-related documentation and employee safety information in accordance with government regulations and workplace safety requirements.
- Developed a digital compliance platform for 3,000+ factories across Sri Lanka, managing factory documentation, safety records, inspections, employee information, and regulatory compliance.
- Coordinated a **5-member team**, delivering all milestones **on schedule** with **zero critical bugs** reported post-launch.

AttendPro – Student Attendance Management App

- Programmed a mobile application for managing student attendance using Flutter and Dart, designed to simplify daily attendance recording.
- Applied features to mark students as Present or Absent, view student attendance records, and calculate daily attendance percentages.
- Crafted a simple and user-friendly interface with online functionality

Currency Converter App

- Produced a mobile currency conversion application using Flutter and Dart to provide quick and convenient currency conversions.
- Structured a simple, responsive, and user-friendly interface with accurate conversion results and an easy-to-use currency selection system.
